

Quattrosoft Eva Wall Matting

The Rubber & Resin Specialists

Our Eva Stable Wall Mats have a cushioned foam construction that gives good impact resistance with a washable surface that when fixed to walls gives extra protection and anti cast for horses in stables, veterinary areas and saddling boxes.

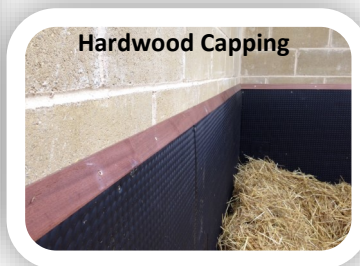

The mats have a Checkerplate pattern on the front side and square pattern on the reverse side.

Also available in a very high density rubber blend version for stable floors and for walls that may receive excessive kicking.

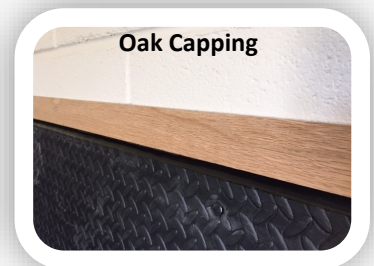

Timber Capping available for protection of the top edge of the matting.
