

## Hammertop & Amoebic Mats

The Rubber & Resin Specialists

Hammertop

Amoebic

The Hammertop and Amoebic Mats are our standard but very popular mats for horse stables and other animal enclosures and both mats are available in thicknesses of 12mm & 18mm

Both these mats are a heavy duty rubber stable mat with a tensile strength of 3Mpa.

On one side the Hammertop mats have a low profile cobble pattern and the Amoebic Mats have a low profile 'Amoebic/Water Dispersed' pattern. Both mats have shallow grooves on the other.

They can be fitted with either side to the top but normally the grooves to the bottom.

Great Insulation Properties. Less bedding needed = Less Cost

12mm mats are also used as silage pit mats.

- **SIZE:** 1.8m x 1.2m (6ft x 4ft)
- **THICKNESSES:** 12mm & 18mm
- **COLOUR:** Black Only
- **TENSILE STRENGTH:** 3.0 Mpa
