

Trough Resurfacer

The Rubber & Resin Specialists

Concrete & Trough Resurfacer

A simple pre made kit to repair passage ways, feed troughs plus much more.

Easy to use, simple to mix resin components with dry products and trowel over damaged area.

Main product properties

- Effluent resistant
- Easy to mix & apply
- Very hard wearing
- Resin bonded for extra strength
- Will feather edge
- Stands tractors, livestock traffic
- Non hazardous
- Long life expectancy

Application

1. Prepare the surface to be treated - clean off and remove any standing water.
2. In the mixing bucket provided is the aggregate and resin additive. Remove the resin additive and pre mix the aggregate if separated. Add the resin additive to the aggregate and mix well.
3. Once mixed pour resurfacer on to the surface and spread over with a trowel.
4. Leave to cure for around 24 hours or until completely hardened.

12kg	24kg
10kg Aggregate	20kg Aggregate
2L Resin Additive	4L Resin Additive
10kg bucket	20.5L bucket
