

# QUATTRO®

## Quattro Bound Stone

The Rubber & Resin Specialists

*QUATTRO's UVR RESIN BOUND STONE SYSTEM* is a new innovation in resin technology allowing the combination of UVR Resin Binders and any type of dry stone aggregate.

This produces a very hard wearing attractive surface that will not discolour or break down with UV light

For use on Drives, Pathways, Pool Surrounds and Patios plus many more areas .

The stone can also be mixed with EPDM rubber granules to give a more cushioned surface with extra grip for Humans & Animals. Please see info on our Flexscreed Stone Blend.
