QUATTRO[®]

Diamond Beast Mats

The Rubber & Resin Specialists

Certain applications require a product that is much stronger than normal options, "The Diamond Beast" has been manufactured to a much higher density and strength to provide long term wear in extreme high wear situations for example cow standings, feed passages & over slats.

At 22mm thick the product delivers strength and durability that cannot be matched.

The unique surface texture provides excellent grip even in wet and dirty conditions and is easily cleaned without splashback when pressure washing.

Shallow grooved base so fits tight to the floor so can't fill up with dirt underneath

Interlocking Edges

Shallow Groove Underside
