

Diamond Beast Mat

Interlocking Rubber Matting

The Diamond Beast has been manufactured to an extremely high density and strength to provide long term wear in extreme high wear situations for example cow standings, feed passages & over slats.

The unique surface texture provides excellent grip even in wet and dirty conditions and is easily cleaned without splashback when pressure washing.

Shallow grooved base so fits tight to the floor so can't fill up with dirt underneath.

Anti-slip surface that is easily washable.

Fast and easy to fit between Milking
