

## Cow Cubicle Mats

## Heavy Duty Eva Cow Mats

Cushioned protection for livestock. High impact resistance properties but still light weight and manageable, Ideal for self fitting.

Made from high density heavy duty rubber blend foam with a bobble top pattern on the surface and raised squares on the reverse for extra comfort. Also provides sound deadening and insulation properties.

Can be used as floor protection in livestock enclosures and transporter vehicles, the sizes of this matting is compatible with most standard transporter sizes and can be cut to size easily with a stanley knife.
